# Master of Cloud Computing & Internet of Things

Benefits

- An ubiquitous part of our living and working environment

- Highly qualified specialists in Cloud Computing and IoT

- Manage the latest technologies in the field

- Expertise of high demand worldwide

cs.upt.ro/education/master

Curriculum

- Algorithms and Protocols in IoT and Cloud

- Smart Sensors and Sensor Networks

- Cloud Based AI Services

- Big Data in Cloud and IoT

- Security and Privacy in IoT and Cloud

- Mobile Cloud Computing and Applications

- Advanced Embedded Systems

- Development of IoT Products

and more ...

Programming your future, since 1966
